

Minutes of the Special Meeting of the Mayor and Council of the City of South Tucson, Arizona, held Tuesday, June 6, 2014, at 6:00 p.m. at the City of South Tucson Council Chambers, 1601 South 6<sup>th</sup> Avenue, South Tucson, Arizona.

Council Present: Paul Diaz  
Vanessa Mendoza  
Idelfonso Green  
Anita Romero  
Miguel Rojas

Staff Present: Luis Gonzales, City Manager  
Veronica Moreno, City Clerk  
Fire Capt. Andy Luna  
Dennis Rankin, Police Dept.

Guests: Chuck Burbank, CEO, Pasadera Behavioral Health Network

Mayor Diaz called the meeting to order and led the Pledge of Allegiance. Councilman Rojas led the Invocation.

ITEM #04 – ROLL CALL – All members of the Council were present, except for Councilman Patino and Councilwoman Soltero, who were excused.

ITEM #05 – APPROVAL OF MINUTES: MAY 19, 2014 – Motion by Councilman Rojas to approve the minutes of the Regular Meeting of May 19, 2014. Seconded by Councilman Green. Motion passed unanimously.

ITEM #06 – DISCUSSION AND POSSIBLE ACTION REGARDING CITY-OWNED ROADWAY ALONG SOUTH 8<sup>TH</sup> AVENUE BETWEEN 37<sup>TH</sup> STREET AND 38<sup>TH</sup> STREET

Mr. Gonzales: Mr. Mayor, members of the Council, just one house-cleaning item here on the agenda (inaudible) you should have after six, you should have seven (inaudible) correction on your agenda.

Unknown: (Inaudible) did not hear anything that was said.

Mayor Diaz: Okay. Hang on just a minute, please.

Mr. Gonzales: I just want to make sure you make that correction.

Councilman Rojas: Okay. The correction is that we're going to renumber and have item 6 discussion and number 7 reports and then 8 call to the audience. That's the correction.

Mr. Gonzales: That's correct. Mr. Mayor, the item before you is an issue relating to the closing of the street on 8<sup>th</sup> Avenue between 37<sup>th</sup> and 38<sup>th</sup>. There was a resolution, and

as you know, it passed on April 8<sup>th</sup> of 1985, which closed that street. And in that resolution, you have, I believe we have five conditions. Those conditions are enumerated there. There are two conditions that I would like to bring your attention to, or I know that you've already read them and you understand them. You've gone through this resolution before. It relates to the road closure and item number D, which is one of the conditions, says that in the event unforeseen circumstances, health, safety, community welfare, demand the reopening of the roadway, the City will reserve the right to do so. That means that you can do this at any time, if we meet those conditions. Condition number (inaudible) which is the 5<sup>th</sup> condition, also says should Arizona Children's Home sell its property, the street shall revert back to the City. What that is it's an automatic reversing of the street back to the City if Children's Home decides to sell that property. So at this point in time, that is not in effect because there hasn't been a closing of the transaction. It is ongoing now between Arizona Children's Home and the Pasadera Behavioral Health Network who is in the process of buying that property. This item here is for further discussion and any possible action that the Council may wish to take regarding that particular roadway.

Mayor Diaz: At this time, I'd like to call for comments from the public. Chuck, would you like to address the Council?

Mr. Burbank: Thank you very much for the opportunity to address the Council and citizens again. It's an honor to be here again. I guess I'd just like to say three things: First, I, we heard you loud and clear on Monday. We have not done a good job as an agency in presenting what we're doing to the community. And we aim to rectify that. We hope to do a much better job in the future in working with the community. In addition to that, we are still, I think it's important for me to say tonight that we still do intend to purchase the property in spite of what happens with the easement one way or the other. That's our plan as of right now. And the third thing, I guess, is as we're discussing this issue, whoever ends up owning this property, I think, or this piece of land, I think it's so beautiful the way it is right now. I would just advocate myself that whoever owns it that it remains in the beautiful state that it is so the community can enjoy walking through the park-like atmosphere of that facility. So that's really all I have to say tonight.

Mayor Diaz: Thank you.

Mr. Burbank: Thank you.

Mayor Diaz: Would anybody else with, proponents of the organization like to speak? None?

Leticia: (Inaudible) speak together.

Mayor Diaz: Okay.

Leticia: We have some things we're going to share in common.

Unidentified male: First of all, we have a reminder here, safer streets. I don't think this is going to bring us safer streets. Safer streets.

Leticia: When they were voted in, they ...

Unidentified male: When they were voted in, when you guys were voted in, ...

Leticia: Were running for office.

Unidentified male: And I don't think this is going to create safer streets. I think it's going to be the opposite.

Leticia: Good afternoon, Mayor and Council, City Manager.

Mayor Diaz: Please keep your comments to the Council.

Leticia: Okay. The South Tucson community is very unhappy with our City Manager's action dealing with SAMHAC. There were meetings held with SAMHAC, the Mayor and City Manager without the presence of the Council members. They had meetings again, Luis Gonzales, had meetings with SAMHAC without the knowledge of the community, without any input from the community. That is most disturbing to the community. I understand that Luis Gonzales is president and CEO of Arizona Native Ventures. He serves, the purpose of the company, the firm, is to service economic development consultants specializing in Indian community. And the reason why I'm talking about this is because I will explain to you later his firm partners the Indian Nation with perspective partners. He negotiates agreements, setting meetings with the parties and this is per his website of his Arizona Native Ventures. And facilitates the meetings with elected officials, etc. This is exactly what Luis Gonzales was doing here in the City of South Tucson. He was meeting with SAMHAC and with the City of South Tucson Mayor. And this was very disturbing to the community. Since Luis has been here, he has, the City of South Tucson was talking about the Community Court where if the officials, the offenders were caught with a misdemeanor or drug possession, drug dealing, they would, instead of going to prison, to jail, they would be sent to rehab. And as I mentioned in one of my previous meetings, que casualidad, what a coincidence that now we have a Community Court and we can just ship these offenders to Arizona Children's Home, which will now be SAMHAC or what other names they merge with, Compass, drug rehabilitation. It was very, very suspicious that we had a meeting with the community regarding the Community Court on Monday night, that opposition to the community was expressed. The following day, the Court, the judge who was pushing this Community Court, is suddenly for health reasons leaves, although it was his little baby, he was the one pushing it, the propaganda, that is very suspicious to the community. Secondly, the fact that SAMHAC comes in, wants to come in to town and talking to Luis, as I mentioned, it's very disturbing. How did, because lack of transparency because they had meetings without the community, in closed doors, one can't help but suspect what is going on here? First they, you know, since you've been here, he wants a Community Court. Now he wants SAMHAC to come here. Now that's

what he does other than being a City Manager. He negotiates, deals, partners people, perspective partners. One second, I'm almost there.

Mayor Diaz: No, it's, stick to the point, please.

Leticia: Yes, the point is he has lost the faith of the community. He has not been truthful to the community. His employment is at will. It's up to the Mayor and Council who represents the community, we want you to terminate his employment because he has, of the faith the community has lost in him because he has not been truthful with the community. We found this out not by him. I'm finished.

Mayor Diaz: Thank you.

Rosella: I second the motion. I feel that we should ask for either for him to resign or that he be, or his employment be terminated.

Mayor Diaz: Thank you.

Unidentified male: As I told Pasadera last week, we lost faith and confidence in you guys. We've never, actually, we never had it. They've been lying to us. We don't want him here for that reason. And I agree with Leticia and Rosella. We don't have faith and confidence in our City Manager. I don't think that he's doing what he's supposed to be doing. He should have been watching out for us. I think by doing this, by proposing this, by letting this go on, and talking to other people, talking to only you, as far as I know, I don't know who else on the Council knew about this before. I don't. If it was just you and him, something this harmful to the community, we can't let it go. We lost confidence in, in Mayor and we lost confidence in the City Manager. That's it.

Leticia: And I do recall, Stacy mentioned and the CEO mentioned that one of their clients was going to be a Native American, and I remember someone in the audience says, "Well, why don't you take the clinic to over there instead of bringing them, Native-American," and as I said at the end, that's what Luis's business specializes in, the Indian Nation as his website says. So now he has ...

Mayor Diaz: Okay, thank you.

Leticia: ... clients. Native-Americans and SAMHAC.

Mayor Diaz: Okay. Thank you. Roberto.

Roberto: Thank you, sir. I just feel that the whole thing has been under the radar and we're looking at, you know, they're pushing for the facility to be open regardless. And I was kind of hoping that they may have changed their mind. I mean as we're looking at this facility, it's just across the street from elementary. We have several other facilities that we provide in this community. And all it takes is one incident, and I can see a lawsuit in the making. Basically, if someone does get hurt, they said they're going to provide some kind of supervision, or minimum supervision, and if something does

occur, again, it's not only this elementary school, but we're also looking at a childcare center. There's a lot of other centers that are in that neighborhood. And as we're looking at this, everything is being pushed. It's under the radar. You're looking at it in the summertime. I mean if the parents as well as the teachers were aware of it, I mean I don't know if they're aware of it or not, if there was a survey that was done by the agency itself to find out how they feel about, you know, the facility going up. I mean I haven't seen anything like that and I haven't seen pamphlets about the agency being up. All I got is from the neighbors, you know, basically telling us that this is going on. And they're just pushing forward. Everything under the radar. And it's summertime. School's out. Parents are not around. Teachers not around. Principals not around. I mean they could easily object about the, having the facility being put up. Again, we have too many agencies. I think this facility could be best used for other needs other than a drug addictions, chemical dependencies (inaudible). I know that it's needed, but not across the street from an elementary school. So we can look at some other use for this facility. That would be great. But again, they're already in escrow and really pushing it. I was kind of hoping that they may change their mind so I just see a lawsuit in the makings.

Mayor Diaz: Thank you. That concludes comments. At this time, then, it's, what are the wishes of the Council?

Councilman Rojas: There's somebody else.

Mayor Diaz: Oh, I'm sorry. Can you fill out a card, please?

Unidentified male: I don't know where they're at.

Mayor Diaz: Is there a card? State your name, address.

Arlene: Yes, my name is Arlene Lopez. My residence is at 240 West 34<sup>th</sup> Street here in Tucson, South Tucson. And I've lived in South Tucson all my life. Okay. Mayor Diaz, members of the Council, Mr. Gonzales, City Manager, I would just like to state a few things. As I sit here and I listen to all these and I had been in contact with some of the other agencies, as I had mentioned before, the SAMHAC, the property did not have to be rezoned so, therefore, the neighborhood was not notified. And in the past, we have had other agencies move in. And how many times did the other Council people and the other City Managers before you notify the neighborhood about agencies coming in? We have quite a few agencies. I counted about thirteen different churches that help the homeless and the chronically mentally ill, then La Frontera and I'm sure they've been mentioned before. Okay? So I hear that SAMHAC said they would like to, they should have communicated better with the community. I think other agencies should have communicated better with this community. Okay? I have a concern. I was, you know, with Mr. Gonzales, I have had conversations with him. I have seen what he's been trying to do. He's been at this job for how long? A year? Not even a year?

Mr. Gonzales: Almost, not quite.

Arlene: Not, not quite a year. And some of the damage that has been done to this community has been done for many, many years ago. Okay? Everybody makes mistakes at one time. Everybody, you know, maybe it could have been handled differently but, you know, this, you know, this is my, we're human, okay? When you were talking about, you were talking about the people walking in the streets and everything. Okay? SAMHAC is not even in yet. People are already out in the street. So my question to you was, the other day, where are these people staying? You know. Some of them are at the Gospel Rescue Mission. Some of them are at Primavera. But a lot of them are here in the community. They're staying in some of the hotels that are being probably CODAC or COPE Behavioral or somebody has some of those residents in the hotels. We have landlords. We have absentee landlords who are renting out to people who deal drugs or whatever, okay? So this, as a community, I feel that we need to work together and we need to come up with solutions instead of blame. Okay? And I feel that we should, as a community, we should communicate with some of the other agencies our concerns, just like SAMHAC has found out what our concerns are. We need to let, I'm sure that now, through the newspaper and everything, the people of Tucson and South Tucson know that we no longer want to be a dumping ground. Okay? And so we need to find out how are the agencies that are here already going to help us, help South Tucson. What can you do a little bit better or a little bit different that can help with the issues that we have out in the streets. Okay? I have talked to one gentleman who owns a hotel and he wants to work with South Tucson. He says he wants to bring in revenue. He wants to see something different. He wants to work with the community, okay? And I think that that's what we should do. We should start looking at doing something positive. Okay? I'm going to do a ride-along with one of the officers because I want to know what's out there in the streets. What are we actually looking at. Okay? What is, what's going on there at night? And I suggest that some of you do the same.

(Simultaneous conversation)

Leticia: You told me you need to address ...

Mayor Diaz: She is ...

Leticia: ... (inaudible) ...

Mayor Diaz: ... addressing, but she's looking your way.

Arlene: I'm looking this way ...

Leticia: (Inaudible) ...

Arlene: ... so they can hear me.

Leticia: ... (inaudible).

Arlene: Can you hear me?

Leticia: Okay. I can hear you, but I was told not to do that.

Arlene: Okay. I'm sorry. And so perhaps, you know, we can have our police department, have other law enforcement agencies come in and help us do a sweep or something. Okay? But I feel it's unfortunate that this has gotten to this point. And if SAMHAC isn't going to, they're going to buy the property, and we can't stop them, so maybe SAMHAC and the community needs to work together. I would hope that maybe they can bring in their administration and save their, you know, bringing in the clients for another time, and just to see what, you know, how everything is going to work out. That is my suggestion. Thank you.

Mayor Diaz: Thank you.

Arlene: Oh, I just wanted to say that, you know, if Mr. Gonzales leaves, okay, who is going to replace him? Is there some kind of a plan here to replace him with somebody? Is that what this is all about? That's my question.

Mayor Diaz: Thank you. Okay. Now that concludes our comments to the Council. So the discussion here is then for the Council to either decide what we're going to do, so Councilman Green.

Councilman Green: Okay. I'm not sure what you're expecting. Is it open for comments or, or a motion:

Councilman Rojas: Addressing a motion. I'll take care of it. Mr. Mayor, ...

Councilman Green: Well, no. I, no, the reason I we-, the reason I'm asking is I'd like to say a couple words myself.

Mayor Diaz: Okay.

Councilman Green: Okay. Luis, yeah, I know you've been here for a year. Okay. What's disturbing is that on Monday, no, excuse me, on Thursday of last week when we had the meeting, you made a comment that the first time you ever met with SAMHAC was two days prior. Okay? On Monday, I posed that question to the Chief, your title, sir? CEO?

Mr. Burbank: CEO, yes.

Councilman Green: Okay. He said that he had spoken to you and to the Mayor two months prior. What's the truth? Did you speak to him two days before?

Mayor Diaz: There was two different points ...

Councilman Green: Well, hold ...

Mayor Diaz: ... (inaudible).

Councilman Green: ... on. No, no, no. Hold on. I'm making a point. You know, give me that, okay, that courtesy. The question here is there's been too much communication and this is the result of it. Between you and the Mayor. Okay? You made a comment on Monday to one of the ladies that the reason this is happening is not because of you, but because of us. Well, us, didn't know except for a few, which was the first time that we met with them on Monday. So, and racking everything up, I've lost faith in you. I'm sorry, you know. So just wanted to put that out.

(Applause from audience)

Councilman Green: No, no, no, you shouldn't be applauding now. It's, it's not, it's not trying to celebrate. The people in this community demand and expect better from us. Open communication is what we ran on, transparency, and that's what I believe in. That's it. Thank you.

Councilman Rojas: Okay. Now to business, Mr. Mayor.

Mayor Diaz: Councilman Rojas.

Councilman Rojas: I'd like to move that we instruct the City Manager Luis Gonzales, to go back to the table and bring us back, for a future meeting, hopefully the next one or, you know, at least the next meeting or the second to that meeting, a resolution that will return the roadway back to the residents of South Tucson, between 37<sup>th</sup> and 38<sup>th</sup>, South 8<sup>th</sup> Avenue. That's my motion.

Councilman Green: Second.

Mayor Diaz: It's been moved and seconded. I'll call for a roll call. City Clerk.

Ms. Moreno: Councilman Green.

Councilman Green: Aye.

Ms. Moreno: Councilman Rojas.

Councilman Rojas: Aye.

Ms. Moreno: Vice-Mayor Anita Romero.

Vice-Mayor Romero: Aye.

Ms. Moreno: Councilwoman Vanessa Mendoza.

Councilwoman Mendoza: Aye.

Mayor Diaz: So the motion passes. There are no nays.

ITEM #08 – CALL TO THE AUDIENCE

Leticia: One of the conditions that Luis talked about regarding the right-of-way easement was number 5, that Arizona, when, at the time when Arizona Children's Home sells, that the right-of-way easement reverts back to the City. This is what you just voted on, that it will go back to the City. Correct? But as Mr. Luis mentioned also, added to that, is that they have not sold the property so if, how does that coincide with this? Because he said until they sell the Arizona Children's Home, it still belongs to them. So it will not happen until they sell? Is that correct? Is that what I'm understanding?

Mayor Diaz: No. What will happen is that we'll go and research everything and come back with a resolution. At that time, all the instructions are that we will end up with the street belonging to South Tucson.

Leticia: When Arizona Children's Home sells.

Mayor Diaz: Is that correct?

Mr. Gonzales: Well, Mr. Mayor, I'm not exactly sure what the intent of the motion is. If the intent of the motion is that the road reverts back to the City at the time of sale ...

Councilman Green: It's already in our ...

Mr. Gonzales: ... then ...

Councilman Green: ... possession.

Mr. Gonzales: ... you already have that in place. So it will automatically go back to the City if it's sold. So in essence, the motion is stated, is already in place. If you were to exercise a different addition on the resolution then it would more than likely move to item D, which is condition number 3 or condition number 4, if you want to name it.

Councilman Green: We don't have that.

Leticia: He doesn't, he only stated two.

Councilman Green: No, no. We don't have that resolution.

Mr. Gonzales: Well, you have this, you got this in the packet.

Leticia: But he only gave two conditions. He skipped one, three, and four. You just stated number five and number two ...

Mr. Gonzales: I could (inaudible) ...

Leticia: ... (inaudible).

Mr. Gonzales: ... if you want to.

Leticia: Yes, please

Mr. Gonzales: The issue is if you wanted to expedite, for example, taking back the street before any sale, you would have to go to condition D, which I read. I'll read it again if you want. That's basically where you would go. Because in that case, and you would then have to declare an unforeseen circumstance under the resolution from 1985.

Councilman Rojas: Right. And at this point, I see the unforeseen condition that the residents want the street back, which is pretty much the message I've gotten.

Mr. Gonzales: In that case, you would exercise section D of the conditions that would basically declare that this is an unforeseen circumstance and then cite the unforeseen circumstance in the resolution.

Councilman Rojas: Right.

Mr. Gonzales: And then what would occur is that if that is adopted, then you would take back the street at the point that it takes effect.

Councilman Green: But see, I'm looking at a legal aspect of it that we may run into if we change it that way. Right now, the resolution that street if they sell, reverts to us. So the vote that we took shouldn't be to draw up a resolution. It's to notify any buyer, SAMHAC or whoever, that at the time of purchase that property, whenever it is, if it's through the sale, you know, to SAMHAC or whoever, that property reverts back to us. It cannot be considered into, and taken into escrow and considered as one piece of property. Is that what I'm understanding, right? If we leave it the way it is.

Mr. Gonzales: That is my belief.

Councilman Green: Okay. So my recommendation is that we allow it to stand how it is. We already voted in, you know, in the opposition of it, of SAMHAC. Or in, you know, because that's what they want. Okay? Or that's what I believe they want. So if we leave it the way it is, we don't have to worry about any legal repercussion or recourse from them to us because we're changing the conditions during the, you know, during the, I mean we're changing horses in mid race. And that's, that's always going to be an issue. Let's just take the horse all the way to the finish line. That's what I'm saying. Does that makes sense?

Councilman Rojas: Well, it does. The thing we want to make sure is that we let the audience and/or buyers, for the future, know that that street is going to be taken back period.

Councilman Green: Right.

Leticia: Yes, and my question ...

Mayor Diaz: And that was done by motion and passed.

Councilman Rojas: That's where the motion ...

Leticia: (Inaudible) ...

Councilman Rojas: ... (inaudible) ...

Leticia: ... thank you very much. Appreciate, the community appreciates that. My concern is how will perspective buyers know about this easement? I mean he was, Luis was working with this, with SAMHAC, but how will other perspective buyers know that? Is there going to be a clause?

Councilman Rojas: It will be a public, it's in public record. Once in our meeting, it publishes as public record that that street will return to us.

Leticia: So the brokers should know that there is a ...

Mayor Diaz: That's good.

Leticia: ... condition that ...

Councilman Rojas: Yeah.

Leticia: ... needs to be met.

Councilman Green: Yeah, that will be any future buyers will go through the realtor and once they do a title search on it they will find out that that property does not belong to them, that it ...

Councilman Rojas: (Inaudible) ...

Councilman Green: ... was granted to us under the, you know, under the land use codes and everything else and that belongs to us.

Leticia: Right.

Councilman Green: Okay. It was given to them temporarily that, you know, it's no longer needed. If the, you know, it's not deeded to anyone except for the City. And the City being the people, then that's ours.

Leticia: Okay.

Councilman Green: So it's two separate properties right now.

Leticia: Right. Okay. That was my question. Thank you.

Mayor Diaz: Thank you.

Councilman Rojas: Reports.

Mr. Gonzales: What is your pleasure?

Mayor Diaz: The way the motion was stated that for you to compose a resolution stating that whatever occurs, whether it's a sell, the seller is selling, it reverts back following the ...

Councilman Rojas: Signing (inaudible).

Mr. Gonzales: Okay. If I understand it, then, the motion that Mr. Rojas has made is to clarify the existing resolution.

Councilman Rojas: Right.

Mr. Gonzales: To clarify the existing resolution as it stands and that is a position of the Council in regard to this, as Mr. Green has said, you restate the current position in a resolution and we'll come back for a further discussion and a vote.

Mayor Diaz: That's correct.

Mr. Gonzales: At this point, the only thing that is giving me direction to bring back a resolution that that is what your intent of your motion is.

Councilman Green: Okay. Let me ask Mr. Rojas to repeat what the difference was that he wants versus the ...

Councilman Rojas: No, the, ...

Councilman Green: ... existing resolution.

Councilman Rojas: ... the, the gist of the motion that that street will revert to us either under special circumstances, which is apparently (inaudible) and/or the at the time of the, if there's a sale before the resolution comes for special circumstances to consider the street really belongs back to the City of South Tucson. It is not going to be part of the property.

Councilman Green: Yeah, and that's, that's already in the current resolution. Am I correct?

Mr. Gonzales: Well, it said so, yes. What, what happened ...

Councilman Green: Yeah, no, ...

Mr. Gonzales: ... (inaudible) ...

Councilman Green: ... (inaudible).

Mr. Gonzales: ... that you would come back with a resolution to reiterate what the current resolution says.

Councilman Green: Okay.

Mr. Gonzales: That's basically ...

Councilman Green: No, no, ...

Mr. Gonzales: ... (inaudible).

Councilman Green: ... (inaudible). Okay.

Mr. Gonzales: If that's your intent, well, that's what we'll bring back.

Mayor Diaz: Yes. Yes?

Councilwoman Mendoza: We already voted.

Councilman Rojas: Yeah.

Mayor Diaz: That's the intent.

Councilman Rojas: Yeah.

Mayor Diaz: That's the intent of the vote.

Mr. Gonzales: You can always reconsider the motion but, you know, ...

Councilman Rojas: No.

Mr. Gonzales: ... but if this is the intent, then this is what we'll bring back.

#### ITEM #09 – REPORTS

Mayor Diaz: Okay. Next item then is Reports and under Reports, I'm going to, this is a draft letter letting everybody know that this will be going out in respect to one of our contemplative plans of renaming of South 6<sup>th</sup> Avenue to Caesar Chavez, Avenida

Caesar Chavez is going, the letter is going to Richard Miranda and this is, of course this is a draft and this is the start of the process. All the mechanics and all that will be taken care of later, but this is just an introduction to the City that our plans are, you know, advancing and we're at the point now where we're communicating with the City of Tucson, see if they would like to participate or not. Councilman Fimbres has already stated that he would join in our efforts and Virginia Romero has also stated that they'd like to have a paid holiday regarding Caesar Chavez. So it's more or less a draft still at this point. You got, you know, it's not sent yet. It's still, if you see any adjustments to be made or would like to add something to it, let us know. We'll change it and we'll go from there. So that's my report. Mr. Gonzales, is there any more?

Mr. Gonzales: No, sir. I have no new reports.

Councilman Green: There is a point of order. One thing, the Chair cannot dictate or make a motion. It's a motion when you bring it up. Like this. Because this, again, we should all get together in private and discuss it instead of in an open session like this.

Councilman Rojas: Excuse me, Mr. Mayor. It's information. We're not voting ...

Councilman Green: No, no.

Councilman Rojas: ... on it.

Councilman Green: Yeah.

Councilman Rojas: It's information.

Councilman Green: It's information but it's leading to a possible motion.

Councilman Rojas: Well, not today.

Councilman Green: No, that's fine. But I'm saying that, you know, we need to get our house in order and we need to start conducting this in a manner that we turn around and we're more transparent and we actually conduct things instead of getting blindsided.

Councilman Rojas: Yeah, but it's information so.

Councilman Green: Yeah.

Councilman Rojas: For the future.

Councilman Green: Well, that's information for future also. Thank you.

Councilwoman Mendoza: Mr. Mayor, do you have a date as to when you guys are planning on, like hoping to send this out?

Mayor Diaz: No. It's just a draft showing that's what I'd like.

Councilman Rojas: Our intent.

Councilwoman Mendoza: But I was just wondering ...

Mayor Diaz: Because we had ...

Councilwoman Mendoza: ... 'cause it had a date of May 6<sup>th</sup> ...

Mayor Diaz: No, ...

Councilwoman Mendoza: ... on there so ...

Mayor Diaz: ... that's ...

Councilwoman Mendoza: ... that's a while back and I didn't know if this was ...

Mayor Diaz: No, that's a draft.

ITEM #07 – ADJOURNMENT - Motion by Councilman Rojas to adjourn the Special Meeting. Seconded by Councilman Green. Motion passed unanimously. The meeting adjourned at 6:42 p.m.

---

Paul Diaz, Mayor

ATTEST:

---

Veronica Moreno, City Clerk

CERTIFICATION

I hereby certify that the foregoing minutes are a true and correct copy of the minutes of the Special Meeting of the City Council of South Tucson, Arizona, held on the 6<sup>th</sup> day of June, 2014. I further certify the meeting was duly called and a quorum was present.

Dated this \_\_\_\_\_ day of \_\_\_\_\_, 2014.

---

Veronica Moreno, City Clerk
